RESPONSIBLE ENTITY'S REPORT

The Directors of Sandalwood Properties Ltd ("Responsible Entity") (ACN 093 330 977), as Responsible Entity for TFS Sandalwood Project 2009 (the "Project" or the "Scheme"), submit their report for the year ended 30 June 2020.

Directors

The names of the Directors of Sandalwood Properties Ltd (the "Directors") during the year and until the date of this report are set out below. The directors were in office for this entire period unless otherwise stated.

Mr Kent Burwash (Chairman);
Mr Steve Dixon;
Mr Richard Henfrey (Appointed 21 February 2020); and
Mr Julius Matthys (Resigned 21 February 2020).

Principal Activities

The Project is a Managed Investment Scheme for the purposes of the Corporations Act 2001 and is regulated by the Project's Constitution and the Corporations Act 2001. The Scheme participants' ("Growers") interests in the Sandalwood lots are managed by the Responsible Entity as a single commercial plantation for the benefit of the Growers.

Growers include interests held by the Responsible Entity or the subsidiaries of Quintis Holdco Pty Limited ("QHPL"). At 30 June 2020 there were 394 units (1/6 ha) held by the Responsible Entity or subsidiaries of QHPL and 3486 units held by other Growers in the Project.

Change of State of Affairs

There have been no significant changes in the state of affairs of the Project during the year other than those disclosed in "Likely Developments and Expected Results".

Results of Operations

During the year, the Scheme continued to be managed in accordance with the investment objective and strategy set out in the Scheme's offer document and in accordance with the Scheme constitution.

Growers are establishing and participating in their own forestry plantation business.

The Scheme derived no operating profit during the financial year (2019: Nil) and made no distributions (2019: Nil).

COVID-19 Outbreak

In March 2020 the COVID-19 outbreak was declared a pandemic by the World Health Organisation.

The Project is located in Western Australia and plantation management services have been undertaken by the plantation manager throughout the Coronavirus ('COVID-19') pandemic.

Likely Developments and Expected Results

The investment strategy of the Scheme will be maintained in accordance with the Scheme constitution and investment objectives as detailed in the Product Disclosure Statement.

Expert Forester's Report for the period from 1 July 2019 to 30 June 2020

This report reviews the status of the plantation managed under this project and the maintenance operations carried out during the year.

Plantation Name:	Voyager	Location:	Ivanhoe Plains (ORIA)
Description:	Lot 240	47.68 ha	
Planting year:	2010		
Block:	13		
Irrigation Method:	Flood		
Irrigation records:	Block 13 total: 14.5MI/ha	Average volume: 2.4MI/ha at each event	
Silvicultural treatments during the year			
<ul style="list-style-type: none">This Block received two broadscale sprays of a knockdown herbicide. Herbicides are used to control weeds that hinder the flow of flood water and spraying reduces the fire hazard.The Block was mulched on two occasions and weed slashed on one occasion.Interrows were delved on one occasion to facilitate the flow of water through the plantation.Irrigation volume was slightly above the target of 10MI/ha.Infrastructure was maintained to a high standard.			

RESPONSIBLE ENTITY'S REPORT

General Comments:	
<ul style="list-style-type: none"> Voyager Block 13 is reasonably good although the western section is poor due to heavy soils. The sandalwood trees have flushed and hosts are vigorous. There have been no further deaths of <i>Cassia siamea</i> and those that remain are healthy. The past season has been conducive to good growth of both sandalwood and its hosts. 	

Plantation Name:	Smiths	Location:	Ivanhoe Plains (ORIA)
Description:	Lot 567, Lot 568	218.82 ha	
Planting year:	2010		
Block:	Block 1 (Smiths 568ABC), Block 2 (Smiths 567A&B) and Block 3 (Smiths 567C)		
Irrigation Method:	Flood		
Irrigation records:	Block 1: total 18.0MI/ha Block 2: total 15.3MI/ha Block 3: total 15.7MI/ha	Average volume 3.0MI/ha at each event Average volume 2.6MI/ha at each event Average volume 2.6MI/ha at each event	

Silvicultural treatments during the year	
<ul style="list-style-type: none"> Block 1 received four broadscale sprays of a knockdown herbicide and spot spraying occurred on two occasions. Blocks 2 and 3 were broadscale sprayed on two occasions with a knockdown herbicide. <i>Cassia siamea</i> in Blocks 2 and 3 were hedged to allow light to reach the sandalwood trees. Irrigation volume was above the target of 10MI/ha/year. Infrastructure was maintained to a high standard. 	

General Comments:	
<ul style="list-style-type: none"> Smith Farm is growing well and remains healthy except for the north-eastern edge (Block 3) where red soils intrude into the plantation and the trees are less vigorous. The <i>Cassia siamea</i> have recently been hedged and this has allowed sunlight onto the sandalwood. A significant number of the <i>Dalbergia lanceolaria</i> are shading the sandalwood and need to be hedged. 	

Plantation Name:	Leucaena	Location:	Ivanhoe Plains (ORIA)
Description:	Lot 100; Lot 2; Lot 269; Lot 3	261.93 ha	
Planting year:	2010		
Block:	2.2; 2.3; 2.4; 1.1; 1.2; 1.3; 2.8; 1.4; 1.5; 1.6		
Irrigation Method:	Flood		
Irrigation records:	Block 2.2; total 16.7MI/ha Block 2.3; total 10.8MI/ha Block 2.4; total 11.2MI/ha Block 1.1; total 13.8MI/ha Block 1.2; total 14.2MI/ha Block 1.3; total 14.2MI/ha Block 1.4; total 9.9MI/ha Block 1.5; total 13.6MI/ha Block 1.6; total 14.2MI/ha Block 2.8; total 13.2MI/ha	Average volume 2.8MI/ha at each event Average volume 2.2MI/ha at each event Average volume 2.2MI/ha at each event Average volume 2.8MI/ha at each event Average volume 2.4MI/ha at each event Average volume 2.4MI/ha at each event Average volume 2.0MI/ha at each event Average volume 2.7MI/ha at each event Average volume 2.8MI/ha at each event Average volume 2.7MI/ha at each event	

Silvicultural treatments during the year	
<ul style="list-style-type: none"> Each Block was broadscale sprayed with a knockdown herbicide on two occasions. Removing weeds improves the flow of irrigation water and reduces the fire hazard. Blocks 1.1, 1.2, 1.3, 2.2, 2.3, and 2.4 were delved to facilitate the movement of irrigation water through the plantation. Infrastructure was maintained to a high standard. 	

General Comments:	
<ul style="list-style-type: none"> Blocks in Leucaena plantation have <i>Cassia siamea</i> and <i>Cathormion umbellatum</i> as long-term hosts, whilst Block 2.8 has the addition of <i>Dalbergia lanceolaria</i>. Parts of the plantation fall on heavy soils and this is most evident in Block 2.2, 2.6 and 2.8. In these Blocks, particularly Block 2.8, the <i>Cassia siamea</i> is not performing well. Parts of Blocks 1.2, 1.3, 1.4 and 1.5 are healthy and the <i>Cathormion umbellatum</i> continues to improve. As noted in earlier reports, almost all the Blocks contain soils that are transitional between Cununurra clay and Aquitaine clay. Trees on the Aquitaine clays do not grow well and the productivity of sandalwood on these Blocks is compromised. However, sandalwood stocking remains, for the most part, on target. 	

RESPONSIBLE ENTITY'S REPORT

Plantation Name:	HCJB	Location:	Packsaddle(ORIA)
Description:	Lot 579	40.75 ha	
Planting year:	2010		
Block:	1, 2		
Irrigation Method:	Flood		
Irrigation records:	Block 1; total 10.5MI/ha Block 2; total 11.7MI/ha	Average volume 1.5MI/ha at each event Average volume 1.7MI/ha at each event	
Silvicultural treatments during the year			
<ul style="list-style-type: none"> • Each Block received a broadscale spray of knockdown herbicides on three occasions. • Host trees were hedged to increase the light reaching the sandalwood. Mulching of the debris followed the hedging. • Irrigation was close to the target of 10MI/ha/year. • Infrastructure was maintained to a high standard. 			
General Comments:			
<ul style="list-style-type: none"> • Both HCJB Block 1 and Block 2 have <i>Dalbergia lanceolaria</i>, <i>Cassia siamea</i> and <i>Cathormion umbellatum</i> as hosts and along with the sandalwood are, for the most part, in good health Block 2 is the better of the two; Block 1 being variable. The <i>Cathormion umbellatum</i> is now healthy and vigorous. • As mentioned in previous reports, there are parts of this plantation that would benefit from a reduction in the size of the host canopies to maximise sunlight onto the sandalwood, thus improving growth and oil production. 			

Plantation Name:	Croot	Location:	Ivanhoe plain (ORIA)
Description:	LOT 254	75.25 ha	
Planting year:	2010		
Block:	84A; 84B; 84C; 84D		
Irrigation Method:	Flood		
Irrigation records:	Block 84A: total 16.1MI/ha Block 84B: total 15.6MI/ha Block 84C: total 22.6MI/ha Block 84D: total 22.2MI/ha	Average volume 2.7MI/ha at each event Average volume 2.6MI/ha at each event Average volume 3.2MI/ha at each event Average volume 3.2MI/ha at each event	
Silvicultural treatments during the year			
<ul style="list-style-type: none"> • Each of the Blocks received a broadscale spray of a knockdown herbicide on three occasions. • Interrows were delved to encourage the free flow of water through the plantation. • Irrigation volumes were well above target. • Infrastructure was maintained at a high level. 			
General Comments:			
<ul style="list-style-type: none"> • Croot plantation has improved markedly since the insect damage that occurred in 2015/2016 and the poor irrigation regime at that time. Intense management options have been deployed to correct the malaise, including fertilisation and a review of the watering regime. 			

Plantation Name:	Chapman	Location:	Ivanhoe Plain(ORIA)
Description:	Lot 6	2.71 ha	
Planting year:	2010		
Block:	10		
Irrigation Method:	Trickle		
Irrigation records:	Block 10: total 7.2MI/ha	Average volume 0.42MI/ha at each event	
Silvicultural treatments during the year			
<ul style="list-style-type: none"> • The single Block in this plantation received one broadscale spray of a knockdown herbicide to improve the flow of water through the plantation and reduce the fire hazard. • Irrigation volumes were below the target. This could reflect the capacity of the trickle system to provide sufficient water. However, trickle systems are generally better than flood irrigation in terms of water use efficiency. • Infrastructure was maintained to a high standard. 			
General Comments:			
<ul style="list-style-type: none"> • The single Block at Chapman plantations remains variable. The configuration at the plantation sees the sandalwood and hosts planted in the same row. Attempts to infill hosts with <i>Dalbergia lanceolaria</i> failed and <i>Albizia lebeck</i> has been used as an alternative. Indications are that this may be effective. The <i>Albizia lebeck</i> remain healthy and many appear to have become effective hosts. • Observations suggest that the trickle system may not be providing sufficient water during the height of the dry season and conversion to flood irrigation may be a better option, although to do this so late in the rotation may be impractical. 			

RESPONSIBLE ENTITY'S REPORT

Environmental Management

The Project's operations are subject to significant environmental regulations under the laws of the Commonwealth and State. There have been no significant known breaches of any environmental regulations to which the Project is subject.

The Directors of the Responsible Entity have considered the National Greenhouse and Energy Reporting Act 2007 (the "NGER Act") which introduces a single national reporting framework for the reporting and dissemination of information about the greenhouse gas emissions, greenhouse gas projects, and energy use and production of corporations. At the current stage of development, the Directors have determined that the NGER Act does not have an effect on the Project for the current or subsequent financial year. The Directors will reassess this position as and when the need arises.

Indemnification and Insurance of Directors and Officers

The constitution of the Responsible Entity requires it to indemnify all current and former officers under a law of the Commonwealth or of a State or Territory. There have been no known significant breaches of any other environmental requirements applicable to the Scheme.

During or since the financial year, the Responsible Entity has paid premiums to insure each of the Directors against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director of the Responsible Entity. The cover included professional indemnity as well as Directors' and officers' insurance. The contract with the insurer prohibits the disclosure of the nature of the liabilities or the amount of premium paid.

Indemnification of Auditors

To the extent permitted by law, the Responsible Entity has agreed to indemnify its auditors, Ernst & Young Australia, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Ernst & Young during or since the financial year.

Events after the Reporting Period

Outbreak of COVID-19

It is not practicable to estimate the potential impact of COVID-19 on the future sale of the forest produce after the reporting date. The situation is subject to rapid change and regional variability and is dependent on measures imposed by the Australian Government and other countries, for management of the public health issue and any economic stimulus that may be provided.

Other than the possible impact of COVID-19 as disclosed above and in 'Results of Operations', no other matter or circumstance has arisen since 30 June 2020 that has significantly affected or may significantly affect the Project.

Auditor's Independence Declaration

The auditor's independence declaration under section 307C of the Corporations Act 2001 for the year ended 30 June 2020 has been received and can be found on page 17 of the report.

For and on behalf of the Directors of Sandalwood Properties Ltd:

Kent Burwash - Chairman

Dated at Perth on 22 October 2020

Independent auditor's report to the Growers of TFS Sandalwood Project 2009

Opinion

We were engaged to audit the financial report of TFS Sandalwood Project 2009 (the Registered Scheme), which comprises the statement of financial position as at 30 June 2020, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and declaration of the directors of Sandalwood Properties Pty Ltd, the Responsible Entity of the Registered Scheme.

In our opinion, the accompanying financial report of the Registered Scheme is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the financial position of the Registered Scheme as at 30 June 2020; and
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Registered Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the financial report and auditor's report thereon

The directors of the Responsible Entity are responsible for the other information. The other information is the Responsible Entity's report accompanying the financial report.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Registered Scheme's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Registered Scheme or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Registered Scheme's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Registered Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Registered Scheme to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

1. GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial report covers the TFS Sandalwood Project 2009 (the "Project" or the "Scheme") as an individual entity. The Project is a Managed Investment Scheme registered in Australia. The Scheme is expected to terminate on 30 June 2025 or at a later date, in accordance with the provisions of the Scheme Constitution.

The Responsible Entity of the Scheme is Sandalwood Properties Ltd (the "Responsible Entity").

Under the Scheme, Growers enter into a Lease and Management Agreement with the Responsible Entity and Quintis Leasing Pty Ltd ("QLPL") (a related entity of the Responsible Entity). Under the Lease and Management Agreement, the Grower sub-leases their Sandalwood lot(s) from QLPL and appoints the Responsible Entity to plant, manage and harvest the trees on the lot, as well as sell the Grower's share of the harvest of the plantation (not applicable where the Grower is an electing Grower as defined below) in consideration for the Grower agreeing to pay establishment fees, annual lease and management fees, a harvest fee and a sales and marketing fee (not applicable where the Grower is an electing Grower).

A Grower is a non-electing Grower unless they have elected to collect their share of the plantation harvest in which case they are an electing Grower.

The Scheme will continue to be managed in accordance with the investment objective and strategy set out in the Scheme's offer document and in accordance with the Scheme Constitution.

The financial report was authorised for issue on 22 October 2020 by the Board of Directors.

Going concern considerations

The financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activity.

Under the Scheme, Growers enter into a lease and management agreement with the Responsible Entity and QLPL. The planting, management, harvest and sale of the trees on the Sandalwood lots are conducted by the project manager, Quintis Forestry Limited ("QFL"), as appointed by the Responsible Entity. The Responsible Entity, project manager and QLPL are wholly owned subsidiaries of Quintis Holdco Pty Limited ("QHPL"). QHPL together with its consolidated subsidiaries are referred to as the "Quintis Group".

The Scheme's liquidity position is linked to its Responsible Entity, which in turn is linked to QHPL (Parent Company of the Responsible Entity), due to on-demand loans extended to the Responsible Entity by wholly owned subsidiaries of QHPL.

After taking into account all available information, the Directors of the Scheme have concluded that there are currently reasonable grounds to believe that the preparation of the 30 June 2020 financial report on a going concern basis is appropriate.

Basis of Preparation

These general purpose financial statements for the year ended 30 June 2020 have been prepared in accordance with requirements of the Corporations Act 2001, Australian Accounting Standards applicable to "for profit entities" and other authoritative pronouncements of the Australian Accounting Standards Board. The financial report also complies with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

The financial statements have also been prepared on an accruals basis and is based on historical cost.

The financial statements only include Scheme property which does not include:

- the application money paid by the Grower to the Responsible Entity which covers the establishment fee, upfront annual fee and upfront rent;
- the lease and management fees paid by the Grower to the Responsible Entity under the Lease and Management Agreement;
- the trees growing on each Grower's lot;
- the harvest produce; and
- the harvest proceeds received by the Responsible Entity on sale of the harvest produce held in trust for the non-electing Growers.

The Scheme has adopted all new and amended Accounting Standards and Interpretations effective as of 1 July 2019. The adoption of these new and amended Accounting Standards and Interpretations had no material impact on the financial position or performance of the Project.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

a) **Functional and presentation currency**

Items included in the financial report are measured using the currency of the primary economic environment in which the Scheme operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Scheme competes for funds and is regulated. The Australian dollar is also the Scheme's presentation currency.

b) **Significant Accounting Judgements**

The Directors of the Responsible Entity (the "Directors") have applied the following key judgements in preparing these financial statements.

Establishment fees paid by Growers

The Directors do not believe that establishment fees paid by Growers to the Responsible Entity represent a contribution to the Scheme and are therefore not Scheme property. Rather these fees are paid to and are received by the Responsible Entity in discharge of the Grower's individual obligation to pay for establishment services relating to the Grower's particular leased area, not the plantation as a whole. Accordingly, establishment fees are not recognised in these financial statements.

Transactions arising from the Lease and Management Agreement

Under the Lease and Management Agreement with the Responsible Entity and QLPL, the Grower sub-leases their Sandalwood lot(s) from QLPL and appoints the Responsible Entity to plant, manage and harvest the trees on the lot (not applicable where the Grower is an electing Grower as defined below), as well as sell the Grower's share of the harvest of the plantation in consideration of the Grower agreeing to pay establishment fees, annual lease and management fees, a harvest fee and a sales and marketing fee (not applicable where the grower is an electing grower).

Transactions arising from the Lease and Management Agreement and other associated charges made between the grower and the Responsible Entity have been excluded from the scope of transactions recognised in the Project's financial statements. The Directors do not believe the annual payments made by the growers to the Responsible Entity become Scheme property. Rather they are paid to and received by the Responsible Entity as rent and fees in discharge of a grower's individual obligation to pay such amounts.

Sandalwood trees and harvest produce

The Sandalwood trees established from the establishment services grow on the individual Grower's leased area. A Grower has full right, title and interest in either the Grower's proportional share of harvested trees (if an electing Grower) or the Grower's proportional share of harvest proceeds from the sale of the harvested trees (if a non-electing Grower). While there is an element of pooling to arrive at the harvested trees, the Grower retains full right, title and interest in the harvested trees. Accordingly, the Directors also believe that the Sandalwood trees and harvest produce are the assets of the Grower rather than the Scheme and as such should not be recorded in the Scheme financial statements as biological assets or inventory respectively.

Cash and cash equivalents held in trust for the Growers

Under the Scheme and Lease and Management Agreement, the Responsible Entity is required to establish separate bank accounts which are maintained by an independent custodian for certain funds received including Application Money received from Growers and gross proceeds from the sale of harvested trees for electing Growers. These bank accounts are held in the name of the Responsible Entity and maintained by an independent custodian in trust for the Growers. The Directors do not believe the funds held by the Responsible Entity in trust for the Growers become Scheme property and therefore these bank accounts have not been recorded in the Scheme financial statements.

c) **New and amended Accounting Standards and Interpretations issued but not yet effective**

A number of new and amended Accounting Standards and interpretations are effective for annual periods beginning after 1 July 2020, and have not been applied in preparing these financial statements. It is not expected that these new and amended Accounting Standards and Interpretations will have a significant impact on the Scheme.

2. **OPERATING SEGMENTS**

Identification of reportable segments

The Responsible Entity has identified that the Scheme has one reportable segment which is consistent with the financial statements as a whole.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

3. SUBSEQUENT EVENTS

Outbreak of COVID-19

It is not practicable to estimate the potential impact of COVID-19 on the future sale of the forest produce after the reporting date. The situation is subject to rapid change and regional variability and is dependent on measures imposed by the Australian Government and other countries, for management of the public health issue and any economic stimulus that may be provided.

Other than the possible impact of COVID-19 as disclosed above and in 'Results of Operations', no other matter or circumstance has arisen since 30 June 2020 that has significantly affected or may significantly affect the Project.

4. FINANCIAL INSTRUMENTS

The Scheme holds no financial instruments.

5. RELATED PARTY DISCLOSURE

a) Responsible Entity

The Responsible Entity of TFS Sandalwood Project 2009 is Sandalwood Properties Ltd, whose immediate parent company is Quintis (Australia) Pty Limited and ultimate holding company is Quintis Holdco Pty Limited.

b) Fees paid or payable to the Responsible Entity

The Responsible Entity did not charge any fees to the Scheme during the year ended 30 June 2020 (2019: nil).

The Responsible Entity provides Sandalwood plantation establishment and management services for TFS Sandalwood Project 2009 and carries out the custodial and administrative functions. There were no transactions during the year and amounts payable at 30 June 2020 between the Scheme and the Responsible Entity were nil.

c) Holdings of Directors and Director Related Entities

No lease interests (on the same terms and conditions as other growers) are held by Directors or parties related to Directors.

A total of 394 units are held by the Responsible Entity or subsidiaries of Quintis and are held on the same terms and conditions as other Growers. No amounts are outstanding at year end.

d) Key management compensation

No compensation has been paid by the Project directly, or its Responsible Entity to key management personnel of Quintis.

6. COMPLIANCE MATTERS

a) Compliance Committee

Mr David Mahon was appointed as Compliance Officer on 26 March 2019.

b) Remuneration of Directors and Compliance Committee

In the current year, no fees were paid (2019: nil) to the Compliance Committee following the appointment of the Directors to the board of the Responsible Entity (refer to Note 6(a)). \$10,909 was paid (2019: \$7,272) by the Responsible Entity to the Directors for provision of their services during the year ended 30 June 2020.

7. AUDITOR REMUNERATION

Ernst & Young are the auditors of the Scheme and the Scheme's compliance plan. During the year the auditors received remuneration in relation to the Project of \$4,100 (2019: \$5,500).

6. CONTINGENT LIABILITIES

There were no contingent liabilities as at 30 June 2020.

7. INCOME TAXES

Under current Australian legislation, the Scheme is not subject to income tax provided the growers are presently entitled to the income of the Scheme and the Scheme fully distributes its net taxable income.

8. PROJECT DETAILS

The registered office of the Project and principal place of business is Level 1, 87 Colin Street, West Perth WA 6005.

DIRECTORS' DECLARATION

In accordance with a resolution of the Directors of Sandalwood Properties Ltd, I state that:

In the opinion of the Directors:

- a) The financial statements and notes of TFS Sandalwood Project 2009 for the year ended 30 June 2020 are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Scheme's financial position as at 30 June 2020 and its performance for the year ended on that date; and
 - (ii) complying with Accounting Standards and the *Corporations Regulations 2001*;
- b) The financial statements and notes also comply with International Financial Reporting Standards as disclosed in Note 1; and
- c) There are reasonable grounds to believe that the Scheme will be able to pay its debts as and when they become due and payable.

Signed on behalf of the Board
Sandalwood Properties Ltd

Kent Burwash - Chairman
Dated at Perth on 22 October 2020

Auditor's independence declaration to the directors of Sandalwood Properties Ltd, as the Responsible Entity for TFS Sandalwood Project 2009

As lead auditor for the audit of the financial report of TFS Sandalwood Project 2009 for the financial year ended 30 June 2020, I declare to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.
