RESPONSIBLE ENTITY'S REPORT

The Directors of Sandalwood Properties Ltd ("Responsible Entity") (ACN 093 330 977) as Responsible Entity for TFS Sandalwood Project 2008 ("the Project" or "the Scheme"), submit their report for the year ended 30 June 2018.

Directors

The names of the Directors of Sandalwood Properties Ltd (the "Directors") during the year and until the date of this report are set out below. The directors were in office for this entire period unless otherwise stated.

Mr Julius Matthys (Appointed 19 October 2018)
Mr Kent Burwash (Chairman) (Appointed 1 November 2018)
Mr Steve Dixon (Appointed 1 November 2018)
Mr Greg Gaunt (Chairman) (Resigned 18 June 2018)
Mr John Gropoli (Resigned 18 June 2018)
Mr Rob Scott (Resigned 18 June 2018)
Mr Dalton Gooding (Resigned 12 July 2017)
Mr Ross Kestel (Resigned 5 July 2017)

Principal Activities

The Project is a Managed Investment Scheme for the purposes of the Corporations Act 2001 and is regulated by the Project's Constitution and the Corporations Act 2001. The Scheme participants' (Growers) interests in the Sandalwood lots are managed by the Responsible Entity as a single commercial plantation for the benefit of the growers.

Change of State of Affairs

There have been no significant changes in the state of affairs of the project during the year other than those disclosed in "Likely Developments and Expected Results".

Results of Operations

During the year, the Scheme continued to be managed in accordance with the investment objective and strategy set out in the Scheme's offer document and in accordance with the Scheme constitution.

Growers are establishing and participating in their own forestry plantation business.

The Scheme derived no operating profit during the financial year (2017: Nil) and made no distributions (2017: Nil).

Likely Developments and Expected Results

The investment strategy of the Scheme will be maintained in accordance with the Scheme constitution and investment objectives as detailed in the Product Disclosure Statement.

Under the Scheme, Growers enter into a lease and management agreement with the Responsible Entity and Quintis Leasing Pty Ltd (formerly known as TFS Leasing Pty Ltd). The planting, management, harvest and sale of the trees on the Sandalwood lots are conducted by the project manager, Quintis Forestry Ltd (formerly known as TFS Forestry Services Ltd), as appointed by the Responsible Entity. The Responsible Entity, project manager and Quintis Leasing Pty Ltd were wholly owned subsidiaries of Quintis Ltd ("Quintis"). Quintis Ltd together with its consolidated subsidiaries are referred to as the "Quintis Group". The Scheme's liquidity position is linked to its Responsible Entity, which in turn is linked to Quintis Holdco Pty Limited ("QHPL") (Parent Company of the Responsible Entity), due to on-demand loans extended to Quintis.

On 20 January 2018, Quintis appointed Richard Tucker, Scott Langdon, and John Bumbak of KordaMentha as voluntary administrators of the Quintis Group. Following this, on 23 January 2018, the Quintis Group's secured noteholder appointed John Preston, Shaun Fraser and Robert Brauer of McGrathNicol as Receivers and Managers of the Quintis Group.

On 8 June 2018, the creditors voted for the Receivers' proposed Deed of Company Arrangement ("DOCA") for Quintis. The creditor vote enabled the strategy to recapitalise Quintis with between A\$125 million and A\$175 million in new cash to be injected into the business to fund operations on a long-term basis.

Quintis was recapitalised effective 30 October 2018 after receiving A\$145 million in funding from its new shareholders.

As part of the recapitalisation the Quintis Group was restructured with Quintis being replaced as Parent Company of the Quintis Group by QHPL.

RESPONSIBLE ENTITY'S REPORT

In October 2018 First Lien notes were issued by the Quintis Group with a principal of USD\$151m, and will mature on September 15, 2026. It is in the Quintis Group's discretion to pay interest in kind or in cash in years one through six at a rate of 7.5% per annum if paid in cash and 8.0% per annum if paid in kind. Interest is to be paid in cash at 7.5% per annum in years seven and eight. Interest is payable semi-annually in arrears.

In October 2018 Second Lien notes were issued by the Quintis Group with a principal of USD\$185m, and will mature on September 1, 2028. No interest is payable in years one through six. Interest is accrued in years six through ten at a rate of 12.0% per annum. Interest is payable semi-annually in arrears.

The recapitalisation will enable the responsible entity to continue to execute the investment strategy of the scheme in accordance with the Scheme constitution and investment objectives as detailed in the Product Disclosure Statement.

Growers include interests held by the Responsible Entity or the subsidiaries of QHPL. At 30 June 2018 there were 271 units (1/6th ha) held by the Responsible Entity or subsidiaries of QHPL and 4,439 units held by other Growers in the project.

Expert Forester's Report for the period from 1 July 2017 to 30 June 2018

This report reviews the status of the plantation managed under this project and discusses the maintenance operations carried out by the company over the past year. This project was planted in 2009 except for Voyager 9 which was planted in 2008. Thus, most trees are aged 9 years while Voyager 9 is aged 10 years.

The project plantation is located on the Ivanhoe Plain, north of the Kununurra town site and is divided between five properties which are as follows.

King Location 574, known as Airport Farm is divided into 8 Blocks. These are numbered 21a, 21b, 21c, 21d, 31a, 31b, 31c and 31d.

King Location 235, designated Waringarri Farm, Blocks 1 to 3.

King Locations 231 and 246, designated Mock Farm, divided into 6 Blocks. These are 23-1, 23-2, 24-1, 25-1, 25-2 (North and South) and 25-3.

King Location 234, designated Chapman Farm, Blocks 1 to 9.

King Location 240, designated Voyager Farm, Blocks 11 and 9.

Plantations under this project are, for the most part, on soils conducive to the growth of sandalwood.

At Airport the *Cathormion umbellatum* is now healthy and vigorous. Blocks 31a, 31b & 31c have *Cassia siamea* and *Cathormion umbellatum* without *Dalbergia lanceolaria*. As earlier reports indicate, large numbers of *Cassia siamea* have died, particularly on the western edge of Block 31d although deaths are spread throughout the plantation. This is due to fungal infections following periods of waterlogging and after hedging. There appear not to be any further deaths of *Cassia siamea* following the application of phosphorus based fungicides, the secession of hedging and a drier wet season. The sandalwood trees in Airport remain unthrifty with sparse crowns and appearance of moisture stress. At the time of the visit, some trees were showing signs of recovery. It appears that of all the plantations in the Ord valley, Airport plantation has been the slowest to recover from the loss of hosts resulting from the wet season of 2015/2016.

All Blocks at Airport were irrigated on six occasions with the average application being 3.1 ML/ha with a range between 2.6 ML/ha and 3.7 ML/ha.

A systemic insecticide was applied from the air to all the Blocks at Airport plantation in August 2017. This was to control bark beetles (*Maroga melanostigma*). This insect eats the bark and rests during the day in holes it bores into the stem. These holes are a conduit for infection.

A broadscale application of herbicide was applied on one occasion to all Blocks. The objective of this is to facilitate the movement of irrigation water through the plantation and reduce the fire hazard.

Waringarri plantation was established with three long-term hosts: *Cassia siamea*, *Dalbergia lanceolaria* and *Cathormion umbellatum*. The *Cathormion umbellatum* continues to improve with age and is now in a healthy condition. The northern end of the plantation remains poor. The majority of the *Cassia siamea* are dead which was due to pathogens that entered the trees through the wounds after hedging.

A broadscale application of knockdown herbicides was applied on four occasions in Block 3 while Blocks 1 and 2 received three sprays. This is primarily to facilitate the movement of irrigation water through the plantation and to reduce the fire hazard.

Each Block was irrigated on five occasions with an average of 2.6 MI/ha at each event. The range was from 1.8 MI/ha to 5.5 MI/ha.

A systemic insecticide was applied to all blocks in August 2017. This was to control the bark borer *Maroga melanostigma*.

Mock plantation is variable. *Dalbergia lanceolaria* is poorly stocked in Block 23.1. The *Cathormion umbellatum* in Block 25.2 is now vigorous, although generally, in both this Block and Block 25.3, the other host trees are not particularly healthy. Growth of sandalwood across the entire plantation is variable.

Each Block in Mock plantation was irrigated six times during the dry season, with the exception of Block 25.3 which was irrigated five times. The average volume on each occasion was 3.6 MI/ha with a range between 1.9 MI/ha and 8.2 MI/ha. The volume of irrigation water that each Block received varied considerably. For example, Block 25.2 received an average of 5.1 ML/ha on each occasion while Blocks 23.1 and 23.2 received 2.3 MI/ha and 2.2 MI/ha respectively. The variation in watering rates is unexplained and observation suggested that Blocks 23.1 and 23.2 were moisture stressed at the time of the visit with sandalwood and some hosts shedding leaves.

The *Dalbergia lanceolaria* was pruned by hand to allow light into the plantation and improve access for machinery. The debris was mulched after the work was complete. The Sandalwood was pruned to encourage a single stem. This is thought to maximise heartwood development.

Blocks 23.1 and 23.2 received a broadscale application of a knockdown herbicide on four occasions, while Block 24.1 was sprayed on three occasions and the remainder on two occasions. This aims to facilitate the movement of irrigation water through the plantation and reduce the fire hazard.

The boundaries of all the Blocks were hedged to improve access for machinery.

A systemic insecticide was applied by air to control stem and bark borers (*Maroga melanostigma*).

Chapman plantation appeared to be moisture stressed which is probably a reflection of the inability of the drip irrigation system that is used in this plantation to provide sufficient water to the trees. It is suggested that these blocks be converted to flood irrigation. There are poor areas, particularly in Block 8 and Block 9 where sandalwood stocking is below target. Chapman plantation was established using a mixed configuration of sandalwood and hosts in the same row. As mentioned, the Blocks are on a drip irrigation system and this could be impacting on the potential of this plantation.

Broadscale applications of herbicide were applied to all Blocks on 2 occasions; Block 1 had an additional application. These treatments are applied to reduce the fire hazard. Vines were removed by hand from the Sandalwood trees across the entire plantation.

All Blocks were irrigated on 5 occasions with an average application of 1.0 MI/ha and a range between 1.0 and 1.1 MI/ha. This is significantly below the target volume of 2.0MI/ha for each irrigation event. The plantation appears to be moisture stressed.

Broadscale applications of a knockdown herbicide were applied on 3 occasions. This aims to facilitate the flow of irrigation water through the plantation and reduce the fire hazard. Slashing of interrows was also carried out.

Voyager plantation is generally in good condition with Sandalwood and hosts looking vigorous. *Cassia siamea* has stabilised with no further deaths. The *Cathormion umbellatum* has improved markedly. In places, hosts are overtopping the Sandalwood. It is understood that hedging is planned once a contractor can be engaged.

Irrigation was applied to both Blocks on 7 occasions with an average of 2.1 and 2.8MI/ha being applied to Block 11 and 9 respectively. The range in Block 11 was 1.5MI/ha to 2.5MI/ha while in Block 9 the range was 1.9MI/ha to 3.9MI/ha. There did not appear to be any moisture stress in these Blocks.

Knockdown herbicides were used to control weeds. Block 9 had a blanket spray on three occasions and a banded spray on one occasion. Block 11 received a blanket spray on one occasion and a banded spray on one occasion. This is primarily to facilitate the movement of irrigation water through the plantation and to reduce the fire hazard.

For the most part Sandalwood stocking across this project is on target. The exceptions are Mock 25.2 and Chapman 8.

RESPONSIBLE ENTITY'S REPORT

Plantation infrastructure was maintained through the dry season and all parts of the plantation remain accessible to vehicles. Water supply channels were delved to maintain good flows of irrigation water. The drains for removal of excess water, both from irrigation and from rainfall in the wet season were cleaned out to remove silt build-up, while access tracks were maintained in a trafficable condition.

In summary, these are reasonably good plantations and are being professionally managed.

Environmental Management

The project's operations are subject to significant environmental regulations under the laws of the Commonwealth and State. There have been no significant known breaches of any environmental regulations to which the project is subject.

The Directors of the Responsible Entity have considered the National Greenhouse and Energy Reporting Act 2007 (the NGER Act) which introduces a single national reporting framework for the reporting and dissemination of information about the greenhouse gas emissions, greenhouse gas projects, and energy use and production of corporations. At the current stage of development, the Directors have determined that the NGER Act does not have an effect on the project for the current or subsequent financial year. The Directors will reassess this position as and when the need arises.

Indemnification and Insurance of Directors and Officers

The constitution of the Responsible Entity requires it to indemnify all current and former officers under a law of the Commonwealth or of a State or Territory. There have been no known significant breaches of any other environmental requirements applicable to the Scheme.

During or since the financial year, the Responsible Entity has paid premiums to insure each of the Directors against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director of the Responsible Entity. The cover included professional indemnity as well as Directors' and officers' insurance. The contract with the insurer prohibits the disclosure of the nature of the liabilities or the amount of premium paid.

Indemnification of Auditors

To the extent permitted by law, the Responsible Entity has agreed to indemnify its auditors, Ernst & Young Australia, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Ernst & Young during or since the financial year.

Events after the Reporting Period

Other than the matters disclosed in heading "Likely Developments and Expected Results" and "Expert Forester's Report", since 30 June 2018, there has not been any matter or circumstance not otherwise dealt with in the financial report that has significantly affected or may significantly affect the project.

Auditor's Independence Declaration

The auditor's independence declaration under section 307C of the Corporations Act 2001 for the year ended 30 June 2018 has been received and can be found on page 17 of the report.

For and on behalf of the Directors of Sandalwood Properties Ltd:

Kent Burwash - Chairman

Dated at Perth this 5th day of June 2019

Independent auditor's report to the Growers of TFS Sandalwood Project 2008

Opinion

We have audited the financial report of TFS Sandalwood Project 2008 (the Registered Scheme), which comprises the statement of financial position as at 30 June 2018, the statement of profit or loss and other comprehensive income, statement of changes in growers' funds and statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and declaration of the directors of Sandalwood Properties Ltd, the Responsible Entity of the Registered Scheme.

In our opinion, the accompanying financial report of the Registered Scheme is in accordance with the *Corporations Act 2001*, including:

- a) Giving a true and fair view of the Registered Scheme's financial position as at 30 June 2018 and of its financial performance for the year ended on that date; and
- b) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Registered Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the financial report and auditor's report thereon

The directors of the Responsible Entity are responsible for the other information. The other information is the Responsible Entity's report accompanying the financial report.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Registered Scheme's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Registered Scheme or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Registered Scheme's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Registered Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Registered Scheme to cease to continue as a going concern.

EY

Building a better
working world

- ▶ Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

All cash transactions during the year were processed and managed by the Responsible Entity and no cash payments are made and received within the project.

The Statement of Cash Flows should be read in conjunction with the accompanying notes.

1. GENERAL INFORMATION AND STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial report covers the TFS Sandalwood Project 2008 ("the Project" or "the Scheme") as an individual entity. The Project is a Managed Investment Scheme registered in Australia. The Scheme is expected to terminate on 30 June 2023 or at a later date, in accordance with the provisions of the Scheme Constitution.

The Responsible Entity of the Scheme is Sandalwood Properties Ltd (the "Responsible Entity").

Under the Scheme, Growers enter into a Lease and Management Agreement with the Responsible Entity and Quintis Leasing Pty Ltd (a related entity of the Responsible Entity and formerly known as TFS Leasing Pty Ltd). Under the Lease and Management Agreement, the Grower sub-leases their Sandalwood lot(s) from Quintis Leasing Pty Ltd and appoints the Responsible Entity to plant, manage and harvest the trees on the lot, as well as sell the Grower's share of the harvest of the plantation (not applicable where the Grower is an electing Grower as defined below) in consideration for the Grower agreeing to pay establishment fees, annual lease and management fees, a harvest fee and a sales and marketing fee (not applicable where the Grower is an electing Grower).

A Grower is a non-electing Grower unless they have elected to collect their share of the plantation harvest in which case they are an electing Grower.

The Scheme will continue to be managed in accordance with the investment objective and strategy set out in the Scheme's offer document and in accordance with the Scheme Constitution.

The financial report was authorised for issue on 5 June 2019 by the Board of Directors.

Going concern considerations

The financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activity.

The Scheme's liquidity position is linked to its Responsible Entity, which in turn is linked to Quintis Holdco Pty Limited ("QHPL") (Parent Company of the Responsible Entity), due to on-demand loans extended to Quintis.

Quintis and its consolidated entities (together "the Quintis Group") incurred a significant net loss after tax and generated negative net cash flow from operating activities for the year ended 30 June 2017. At 30 June 2017 the Quintis Group's total current liabilities also exceeded its total current assets.

Quintis was recapitalised effective 30 October 2018 after receiving A\$145 million in funding from its new shareholders. With a restructured balance sheet, Quintis is now a well-funded private company. The successful recapitalisation enabled the Quintis Group to continue as a going concern and provided the Responsible Entity with the funding support required to continue to manage and maintain Indian Sandalwood plantations as Responsible Entity for the Scheme.

After taking into account all available information, the Directors of the Scheme have concluded that there are currently reasonable grounds to believe that the preparation of the 30 June 2018 financial report on a going concern basis is appropriate.

Basis of Preparation

These general purpose financial statements for the year ended 30 June 2018 have been prepared in accordance with requirements of the Corporations Act 2001, Australian Accounting Standards applicable to "for profit entities" and other authoritative pronouncements of the Australian Accounting Standards Board. The financial report also complies with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

The financial statements have also been prepared on an accruals basis and is based on historical cost.

The financial statements only include Scheme property which does not include: -

-) the application money paid by the Grower to the Responsible Entity which covers the establishment fee, upfront annual fee and upfront rent;
-) the lease and management fees paid by the Grower to the Responsible Entity under the Lease and Management Agreement;
-) the trees growing on each Grower's lot;
-) the harvest produce; and
-) the harvest proceeds received by the Responsible Entity on sale of the harvest produce held in trust for the non-electing Growers.

The Scheme has adopted all new and amended Accounting Standards and Interpretations effective as of 1 July 2017. The adoption of these new and amended Accounting Standards and Interpretations had no material impact on the financial position or performance of the project.

1. GENERAL INFORMATION AND STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(a) Functional and presentation currency

Items included in the Scheme's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Scheme competes for funds and is regulated. The Australian dollar is also the Scheme's presentation currency.

(b) Significant Accounting Judgements

The Directors of the Responsible Entity (the "Directors") have applied the following key judgements in preparing these financial statements.

Establishment fees paid by Growers

The Directors do not believe that establishment fees paid by Growers to the Responsible Entity represent a contribution to the Scheme and are therefore not Scheme property. Rather these fees are paid to and are received by the Responsible Entity in discharge of the Grower's individual obligation to pay for establishment services relating to the Grower's particular leased area, not the plantation as a whole. Accordingly, establishment fees are not recognised in these financial statements.

Transactions arising from the Lease and Management Agreement

Under the Lease and Management Agreement with the Responsible Entity and Quintis Leasing Pty Ltd (, the Grower sub-leases their Sandalwood lot(s) from Quintis Leasing Pty Ltd and appoints the Responsible Entity to plant, manage and harvest the trees on the lot (not applicable where the Grower is an electing Grower as defined below), as well as sell the Grower's share of the harvest of the plantation in consideration of the Grower agreeing to pay establishment fees, annual lease and management fees, a harvest fee and a sales and marketing fee (not applicable where the grower is an electing grower).

Transactions arising from the Lease and Management Agreement and other associated charges made between the grower and the Responsible Entity have been excluded from the scope of transactions recognised in the project financial statements. The Directors do not believe the annual payments made by the growers to the Responsible Entity become Scheme property. Rather they are paid to and received by the Responsible Entity as rent and fees in discharge of a grower's individual obligation to pay such amounts.

Sandalwood trees and harvest produce

The Sandalwood trees established from the establishment services grow on the individual Grower's leased area. A Grower has full right, title and interest in either the Grower's proportional share of harvested trees (if an electing Grower) or the Grower's proportional share of harvest proceeds from the sale of the harvested trees (if a non-electing Grower). While there is an element of pooling to arrive at the harvested trees, the Grower retains full right, title and interest in the harvested trees. Accordingly, the Directors also believe that the Sandalwood trees and harvest produce are the assets of the Grower rather than the Scheme and as such should not be recorded in the Scheme financial statements as biological assets or inventory respectively.

Cash and cash equivalents held in trust for the Growers

Under the Scheme and Lease and Management Agreement, the Responsible Entity is required to establish separate bank accounts which are maintained by an independent custodian for certain funds received including Application Money received from Growers and gross proceeds from the sale of harvested trees for electing Growers. These bank accounts are held in the name of the Responsible Entity and maintained by an independent custodian in trust for the Growers. The Directors do not believe the funds held by the Responsible Entity in trust for the Growers become Scheme property and therefore these bank accounts have not been recorded in the Scheme financial statements.

(c) New and amended Accounting Standards and Interpretations issued but not yet effective

A number of new and amended Accounting Standards and interpretations are effective for annual periods beginning after 1 July 2018, and have not been applied in preparing these financial statements. It is not expected that these new and amended Accounting Standards (and Interpretations) will have a significant impact on the Scheme.

2. OPERATING SEGMENTS

Identification of reportable segments

The Responsible Entity has identified that the Scheme has one reportable segment which is consistent with the financial statements as a whole.

3. SUBSEQUENT EVENTS

Other than the recapitalisation of Quintis, since 30 June 2018, there has not been any matter or circumstance not otherwise dealt with in the financial report that has significantly affected or may significantly affect the Scheme.

4. FINANCIAL INSTRUMENTS

The Scheme holds no financial instruments.

5. RELATED PARTY DISCLOSURE

(a) Responsible Entity

The Responsible Entity of the TFS Sandalwood Project 2008 is Sandalwood Properties Ltd, whose immediate parent company is Quintis Ltd and Ultimate Holding company is Quintis Holdco Pty Limited.

(b) Directors and key management personnel

The Directors and key management of the Responsible Entity during the period and until the date of this report were:

Mr Julius Matthys (Appointed 19 October 2018)
Mr Kent Burwash (Chairman) (Appointed 1 November 2018)
Mr Steve Dixon (Appointed 1 November 2018)
Mr Greg Gaunt (Chairman) (Resigned 18 June 2018)
Mr John Groppoli (Resigned 18 June 2018)
Mr Rob Scott (Resigned 18 June 2018)
Mr Dalton Gooding (Resigned 12 July 2017)
Mr Ross Kestel (Resigned 5 July 2017)

(c) Fees paid or payable to the Responsible Entity

The Responsible Entity receives all lease and management fees which have been paid by the Growers during the year. Refer to Note 1(b) for additional detail on transactions arising from the Lease and Management Agreement.

The Responsible Entity did not charge any fees from the Scheme during the year ended 30 June 2018 (30 June 2017: nil).

The Responsible Entity provides Sandalwood plantation establishment and management services for TFS Sandalwood Project 2008 and carries out the custodial and administrative functions.

There were no related party transactions during the year. As at 30 June 2018, amounts payable between the Scheme and the Responsible Entity was nil.

(d) Holdings of Directors and Director Related Entities

No lease interests (on the same terms and conditions as other growers) are held by Directors or parties related to Directors.

A total of 271 units are held by the Responsible Entity or subsidiaries of Quintis and are held on the same terms and conditions as other Growers. No amounts are outstanding at year end.

(e) Key management compensation

No compensation has been paid by the project directly, or its Responsible Entity to key management personnel of Quintis.

6. COMPLIANCE MATTERS

(a) Compliance Committee

There was no compliance committee in the current year. The Compliance Officer, Neil Hackett, resigned on 31 July 2017 and was replaced by Quentin Megson. On 2 March 2018, Mr. Megson resigned as Compliance Officer and on 26 March 2019 Mr David Mahon was appointed as Compliance Officer.

(b) Remuneration of Directors and Compliance Committee

In the current year, no fees were paid (2017: nil) to the Compliance Committee following the appointment of the Directors to the board of the Responsible Entity (refer to Note 6(a)). \$6,912 was paid (2017: \$13,824) to the Directors for provision of their services during the year ended 30 June 2018. Fees for the Scheme are borne by Sandalwood Properties Ltd, the Responsible Entity.

7. AUDITOR REMUNERATION

Ernst & Young are the auditors of the Scheme and the Scheme's compliance plan. During the year the auditors received remuneration in relation to the project of \$5,500 (2017: \$5,575). Audit fees for the Scheme are borne by Sandalwood Properties Ltd, the Responsible Entity.

8. CONTINGENT LIABILITIES

There are no contingent liabilities during the year ended 30 June 2018.

9. INCOME TAXES

Under current Australian legislation, the Scheme is not subject to income tax provided the growers are presently entitled to the income of the Scheme and the Scheme fully distributes its net taxable income.

10. PROJECT DETAILS

The registered office of the project and principal place of business is Level 2, 171-173 Mounts Bay Road, Perth WA 6000.

DIRECTORS' DECLARATION

In accordance with a resolution of the Directors of Sandalwood Properties Ltd, I state that:

In the opinion of the Directors:

- (a) The financial statements and notes of TFS Sandalwood Project 2008 for the financial year ended 30 June 2018 are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the Scheme's financial position as at 30 June 2018 and its performance for the year ended on that date; and
 - (ii) complying with Accounting Standards and the Corporations Regulation 2001;
- (b) The financial statements and notes also comply with International Financial Reporting Standards as disclosed in Note 1; and.
- (c) Subject to the matters set out in Note 1, there are reasonable grounds to believe that the Scheme will be able to pay its debts as and when they become due and payable.

Signed on behalf of the Board
Sandalwood Properties Ltd

Kent Burwash - Chairman
Dated at Perth this 5th day of June 2019

Auditor's Independence Declaration to the Directors of Sandalwood Properties Ltd, as the Responsible Entity for TFS Sandalwood Project 2008

As lead auditor for the audit of the financial report of TFS Sandalwood Project 2008 for the financial year ended 30 June 2018, I declare to the best of my knowledge and belief, there have been:

- a) No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) No contraventions of any applicable code of professional conduct in relation to the audit.
